DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 5-11, drawn to a hologram record carrier having a substrate, a reflective layer, a holographic recording layer and a two-dimensional recording layer, wherein the two-dimensional recording layer is disposed between the hologram recording layer and the reflecting layer.

Group II, claim(s) 12-25, drawn to a hologram apparatus of a hologram record carrier comprising: servo control for causing a light beam to track movement of the hologram record carrier is performed by focusing the light beam on the two-dimensional recording layer to detect returning of the light beam, and recording or reproducing of a mark is performed on the two-dimensional recording layer by the light beam.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

For each of the Groups I-II above, each of the listed groups has special technical features not required for the other listed group. The special technical features exclusive to each group are listed above in the listing of the groups.

3. A telephone call was made to John Rabenu (202-293-7060) on 3/12/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
